	LD-CARE-002 PROTECTOR DE LLANTAS	

ANKEX PROTECTOR DE LLANTAS ® TIRE GEL

INTRODUCTION:	ANKEX Protector de Llantas (tire gel) is a product of the ANKEX automotive industrial line, specially formulated to improve the appearance of vehicle tires. It gives them a long-lasting glossy finish thanks to its resistance to water, mud and dust.		
SPECIFICATIONS:	The tire protector presents the following characteristics:		
	Color:	Characteristic	
	Physical state:	Viscous liquid	
	% Moisture (105°C, 2 h):	12% Max.	ASTM D280
FUNCTIONALITY:	ANKEX Protector de Llantas is designed to be used on automotive tires, providing a shiny and long-lasting finish.		
APPLICATION:	Before applying the product, make sure the surface is clean, dry and at room temperature. Apply the product by spreading it with a sponge until a homogeneous and shiny surface is obtained. It should not be applied to the tread of the tires. It should not be applied to the tires of two-wheeled vehicles.		
HANDLING:	ANKEX Protector de Llantas is not flammable and does not present health risks when used according to the recommended application. Only the normal precautions of any application practice are required for storage and handling.		
STORAGE:	Keep the container tightly closed and store in a cool, dry place. Avoid extreme temperatures.		
CAUTION:	This product should not be applied to the tires of bicycles, motorcycles or other two-wheeled vehicles. It should not be applied to the tire tread or to surfaces that must not be slippery. Avoid contact of the product with disc brakes. Keep the product away from sources of heat and flame. Remove excess product from vinyl or painted surfaces. In case of spillage, remove immediately to avoid slippery floors. For use on tires only. Do not ingest. May cause eye and skin irritation. In case of skin contact, rinse with plenty of soap and water. In case of respiratory irritation, move the person to a well-ventilated area. If irritation persists, consult a doctor. Keep out of the reach of children and pets.		
PACKAGING:	Containers of 180 milliliters, 500 milliliters, 1 liter and 4 liters.
