DSL-302

STAINLESS STEEL SURFACE CLEANER

INTRODUCTION: DSL-302 is an industrial degreaser composed of a mixture of terpenes and corrosion inhibitors, formulated to quickly remove dirt and grease. It allows cleaning and degreasing all types of machinery and surfaces such as floors and pipes. It does not contain aromatic solvents (no VOC) and is soluble in water. It removes oil, carbon black, grease and rubber. It does not corrode metal surfaces.

SPECIFICATIONS: DSL-302 presents the following characteristics:

pH:	11.80 +/- 2.0	ASTM E70-07
% Solids (105°C, 2 h):	21.00 +/- 5.0	ASTM D460
Appearance:	Amber or yellow liquid	

FUNCTIONALITY: DSL-302 can be used pure or diluted in water, depending on the degree of soiling.

APPLICATION: Apply by spraying, allow the solution to act for 2 to 3 minutes, scrub with a brush or wipe, and then rinse.

HANDLING: DSL-302 is non-toxic. Normal safety and handling practices are required. Wear rubber gloves, safety goggles and a face mask when using it. Avoid contact with skin and eyes.

STORAGE: DSL-302 must be stored between 2°C and 60°C. Freezing must be avoided.

PACKAGING: DSL-302 is available in 5, 15 and 55 gallon containers.
